

Petak / Friday 04. 10. 2024.

Vreme / Time	Tema	Subject	Predavač / Lecturer
15:15 - 15:30	Kompetencije medicinskih sestara koje rade u anesteziji i intenzivnom lečenju u Slovačkoj Republici	Competences of nurses working in anesthesia and intensive care in the Slovak Republic	Doc. PhDr. Zuzana Rybárová
15:30 - 15:45	Bezbednost pacijenta u anesteziji	Patient safety in anesthesia	Dipl. med. sestra Ana Lučić
15:45 - 16:00	Umjetna iteligencija-partner u sigurnosti bolesnika	Artificial intelligence - partner in patient safety	mag. med. Teh. Kristian Cvika
16:00 - 16:30	Dijagnosticki pregledi sa anestezijom kod dece	Diagnostic examinations with anesthesia in children	Diplomirana medicinska sestra Julijana Kazandjiska
16:30 - 16:45	Pokušaj suicida i liječenje Akinetonom	Suicide attempt and Akineton treatment	Dipl. med, sestra Vesna Gruješić
16:45 - 17:00	Hitno i planirano uvođenje picc katetera	Urgent and planned insertion of a picc catheter	Diplomirani medicinski tehničar Semir Lemeš
17:00-17:15	Kompetencije anestetičara	Competences of anesthetists	Strukovni medicinski tehničar Nikola Momčilović
17:30-17:45	Napredak u IV terapiji- ultrazvukom vođena periferna venska kanilacija	Advances in IV Therapy- Ultrasound Guided Peripheral venous cannulation	Dipl. med. sestra Aleksandra Filipović
17:45 - 18:00	Pauza / Pause		

Radionica / Workshop**Primena videobronhoskopa u anesteziji / Application of videobronchoscope in anesthesia**

18:30 - 19:00	Primena videobronhoskopa	Application of the videobronchoscope	Application of the videobronchoscope
19:00 –19:30	Primena videobronhoskopa Vežbe - Rad u grupi	Application of the videobronchoscope Exercises - Work in a group	Strukovni medicinski tehnicar Novica Radovanović
19:30 –20:00	Diskusija	Discussion	

Subota / Saturday 05. 10. 2024.

Vreme / Time	Tema	Subject	Predavač / Lecturer
09:00 - 09:15	Sekundarni helikopterski transport	Secondary helicopter transport	Diplomirani medicinski tehničar Rudi Kočevar
09:15 - 09:30	Edukacija iz ključne oblasti prevencije bolničkih infekcija	Education in the key area of hospital infection prevention	PhDr. Lenka Gajdošová
09:30 - 09:45	Anestezija u pedijatriji	Anesthesia in pediatrics	Dipl.med.sestra Jerneja Grmovsek
09:45 - 10:00	Regionalna anestezija nekad I sad	Regional anesthesia then and now	Dipl. Zdravstvenik Goran Serdoner
10:00 - 10:15	Kvalitet života i zdravlja pod uticajem tehnologije	Quality of life and health under the influence of technology	Diplomirani medicinski tehničar
10:15 - 10:30	“ Stroke of genius” Price on call medicinske sestre anesteticeara iz neuroendovaskularnih ekspedicija	"Stroke of genius" Price on call of nurse anesthetists from neuroendovascular expeditions	Diplomirana medicinska sestra Natalija Brunčić
10:30 - 11:00	Pauza / Pause		
11:00 - 11:15	Uloga I zadaci medicinskog tehničara u vazdušnom medicinskom transport pacijenta u Republici Srpskoj	The role and tasks of the medical technician in the air medical transport of the patient in the Republic of Srpska	Mt Aleksandar Macanović
11:15 - 11:45	Slabost kod starijih pacijenata, jos jedan alat za perioperativnu procenu	Frailty in the elderly patient, another tool for perioperative assessment	Prof. Moncef Jendoubi

Radionica / Workshop			
Primena Port katetera / Application of Port Catheter			
11:15 - 12>30	Značaj primene port ktetera	Importance of port catheter application	Ass.dr Ana Cvetković Strukovni medicinski tehničar - Jovan Filipović
12:30-12:45	Uzimanje uzoraka krvi za laboratorijske analize i primena terapije putem port katetera - Vežbe - Rad u grupi	Taking blood samples for laboratory analysis and applying therapy through a port catheter - Exercises - Work in a group	Strukovna medicinska sestra - Marina Jezdimirović
12:45-13:00	Terapija bola	Pain therapy	Dr Bogdan Pavlović
13:00-13:15	Easy pulse- aparat za mehaničku kardiopulmonalnu reanimaciju	Easy pulse - device for mechanical cardiopulmonary resuscitation	Dr Tatjana Savić Schiler Srbija

Radionica / Workshop			
Primena aparata za masažu srca / Application of heart massager			
13:15 - 13:30	Primena aparata za masažu srca u kardiopulmonalno cerebralnoj reanimaciji	Application of heart massage apparatus in cardiopulmonary cerebral resuscitation	Strukovna medicinska sestra - Ljiljana Zerzevska
13:30 - 14:30	Tehnika postavljanja i metod primene aparata za spoljnu masažu srca Vežbe - Rad u grupi	Taking blood samples for laboratory analysis and applying therapy through a port catheter Exercises - Work in a group	Strukovna medicinska sestra - Tanja Trajković
14:30 - 16:00	Pauza / Pause		
16:00 - 16:30	Poster prezentacije	Poster presentation	
	Oralna nega intubiranog pacijenta u jedinici intenzivne terapije	Oral care of the intubated patient in the intensive care unit	dipl.m.s. Almedina Džolić
16:30 - 19:00	Usmene prezentacije	Oral presentations	
	Uloga i zadaci anestezičara prilikom operativnog tretmana AAA te upotreba cell savora u istoj	The role and tasks of the anesthetist during the operative treatment of AAA and the use of cell saver in the same	Mt Pero Rogić
	Uloga medicinske sestre/tehničara u anesteziološkom timu	The role of the nurse/technician in the anesthesia team	Ms Marija Simić
	Kompetencije medicinske sestre/tehničara u anesteziji u novom Urgentnom centru univerzitetskog centra Srbije	Competences of nurses/technicians in anesthesia in the new Emergency Center of the University Center of Serbia	Vms Jelena Novičić-Pankeričan
	Kompetencije medicinske sestre/tehničara u OIT UKC Srbije	Competences of nurses/technicians in OIT UKC Serbia	Visoka strukovna medicinska sestra Tamara Marić Stojanović
	Psihološka podrška pacijentima (uloga medicinske sestre)	Psychological support for patients (nurse role)	Ms Kristina Kuntic
	Uloge medicinske sestre u radu sa pacijentama za kranio cerebralne povrede glave u jedinice za intenzivnoj nezi, klinika za neurohirurgija	Roles of the nurse in working with patients for craniocerebral head injuries in intensive care units, clinic for neurosurgery	Vms Daniela Delova
	Maligna hipertermija	Malignant hyperthermia	Dipl.med.sestra Karolina Gjorgijovska
	Zdravstvena nega vitalno ugroženih pacijenata	Health care of vitally endangered patients	Mt Vladimir Nenčić
19:00 - 19:30	Diskusija	Discussion	

Slabost kod starijih pacijenata	Frailty in the elderly patient	Prof. Moncef Jendoubi
